Weekly Report Entry - Approved

On July 9, 2018, Louisiana Military Department (LMD) notified EPA that their Addendum 1 operations (red bag) began last week (no date or progress update). LMD indicated the operation would not take as long as originally estimated (60

On November 13, 2018, the EPA Region 6 hosted a community meeting in Dallas, Texas, from 6:00 to 8:00pm at the Highland Hills Branch Library. The purpose of this community meeting was to provide a Site update on the Lane Plating

EPA Region 6 and 9 project managers have completed review of team comments on the 95% remedial design of moving EPA Region 9 mine waste from the Northeast Church Rock mine site on the Navajo Nation to the EPA Region 6 existing mill site tailing cells at UNC. The potentially responsible party will be notified via email of the final review

On January 30, 2018, the EPA, in cooperation with the Texas Commission on Environmental Quality, conducted a community meeting in Galveston, Texas to provide information on the San Jacinto Site. The public requested this meeting during the last site community meeting held in December 2017 in Highlands, Texas. The meeting included a

On January 23, 2018, the New Mexico Environment Department conducted a community open house in Roswell, New Mexico to solicit private well owners permission to sample their domestic or irrigation wells in the distal ground water plume area. The wells will be sampled for dry cleaning solvents that originated from the source area and have expanded out into the primarily rural county area. The information will be used to update the conceptual site model

On January 23, 2018, the New Mexico Environment Department conducted a community open house in Roswell, New Mexico to solicit private well owners permission to sample their domestic or irrigation wells in the distal ground water plume area. The wells will be sample for dry cleaning solvents that originated from the source area and have expanded out into the primarily rural county area. The information will be used to update the conceptual site model and assist

On January 23, 2018, the New Mexico Environment Department hosted a community open house in Roswell, New Mexico to solicit private well owners permission to sample ground water wells in the distal ground water plume area. The meeting was attended by only 6 residents. The wells will be sampled for dry cleaning solvents that originated from

During the week of January 16 - 19, 2018, EPA Region 6 and Region 9 Remedial Project Managers (RPMs) met to resolve comments provided by the Department of Energy, Navajo Nation Environmental Protection Agency, New Mexico Environmental Department, and the local community on the 95% Remedial Design. The design is to remove uranium

On January 30, 2018, the Environmental Protection Agency, in cooperation with the Texas Commission on Environmental Quality, will conduct a community meeting in Galveston, Texas to provide information on the San Jacinto Site. The public requested this meeting during the last site community meeting held in December 2017 in Highlands, Texas. The upcoming meeting will include a discussion of the Record of Decision issued in October 2017, a history of

On December 20, 2018, EPA Remedial Project Manager (RPM) and New Mexico Environment Department (NMED) Project Manager performed a site inspection as part of the 2nd Five Year Review for the Site. During the site visit the RPM and Project Manager will interview nearby residents, a city council member and the mayor, if available.

On December 18, 2017, EPA staff and the Oklahoma Department of Environmental Quality (ODEQ) met to begin discussions on remedial investigation (RI) scoping for the Eagle Industries site located in Midwest City, Oklahoma. The

On November 28, 2017, EPA Remedial Project Manager received an electronic copy and notification from the Agency for Toxic Substances and Disease Registry (ATSDR), Division of Community Health Investigations. The electronic message indicated public release of the Draft Public Health Assessment Report on the Jackpile-Paguate Uranium Mine

On November 15, 2017, the Environmental Protection Agency (EPA) published a press notice indicating that EPA Region 6 will be conducting the fifth five-year review of remedy implementation and performance at the North Cavalcade

On April 10, 2018, EPA and the Oklahoma Department of Environmental Quality (ODEQ) plan to host an Open House for the Eagle Industries site. The meeting will be held at the Midwest City Community Center in Midwest City, OK, from

On March 28, 2018, EPA Regions 6 and 7 met with state and tribal representatives, trustees and community/watershed groups to discuss comments and concerns regarding work in the Tri-state Mining District for Tar Creek. EPA provided updates on remedial action progress in both Kansas and Missouri, as well as remedial action progress in Oklahoma with

On July 10, 2018, EPA and the Oklahoma Department of Environmental Quality (ODEQ) plan to host a public meeting to discuss the Source Control Proposed Plan for the Wilcox Oil Company site. During the public meeting, the members intend to provide information about the preferred alternative to address source material which include excavation,
On March 13, 2018, EPA plans to host a community meeting over the Remedial Investigation/Feasibility Study process for the Lea and West Second Street site. Other agencies planning to attend the meeting include the New Mexico Environment Department (NMED), Agency for Toxic Substances and Disease Registry(ATSDR) and EPA contractors.
On March 16, 2018, EPA, in coordination with the New Mexico Environment Department (NMED) and the New Mexico Energy, Minerals, and Natural Resources Department, plans to meet with representatives from the Village of Questa.
On February 20, 2018, the EPA and the Quapaw Tribe intended to host a site tour for representatives from the Bureau of Indian Affairs (BIA) Miami Agency as well as the advisors to the EPA Administrator. Unfortunately, inclement weather did not allow for the site tour so a virtual Google Earth tour and in-person meeting was substituted. EPA is working with BIA to reach an agreement on the Institutional Controls issue since the BIA is the federal agency with the regulatory authority to place deed notices on restricted properties. On February 20, 2018, the EPA Superfund reuse coordinator and the acting Remedial Branch Chief participated in a meeting in Miami, Oklahoma, with representatives from the Cities of Miami and Commerce, Oklahoma, and the Oklahoma Department of Environmental Quality (ODEQ) Tar Creek team. Additionally, Kenneth Wagner and Erin Chancellor, both advisors to the EPA Administrator, joined the meeting in
On February 20, 2018, the EPA Superfund reuse coordinator and the acting Remedial Branch Chief participated in a meeting in Miami, Oklahoma, with representatives from the Cities of Miami and Commerce, Oklahoma, and the Oklahoma Department of Environmental Quality (ODEQ) Tar Creek team. Additionally, Kenneth Wagner and Erin Chancellor, both advisors to the EPA Administrator, joined the meeting in Miami. The purpose of the meeting was to discuss Miami's interest in acquiring a vacant industrial property and an inactive rail spur from BNSF Rail, both of which
During the week of March 5, 2018, EPA plans to respond to an open letter from BVDA that is planned to be published in a major newspaper. The letter describes the history of contamination at the site, its impact on the community and the
On February 27, 2018, the Bandera Road Superfund Site Community Advisory Group hosted a public meeting from 6:00 - 8:00 pm at the Leon Valley Community and Conference Center. The EPA attended this public meeting and presented an
The EPA plans to issue the Proposed Plan the last week of March or the first week of April 2018. Public notices will be placed in local newspapers (i.e., English and Spanish) announcing the issuance of the Proposed Plan and date/location
The Oklahoma Department of Environmental Quality and the EPA hosted an Open House for the Eagle Industries Superfund Site on February 22, 2018. The meeting was held at the Midwest City Community Center, Midwest City, OK,
